

# INDEX OF MYCENAEAN WORDS

by JOSÉ L. MELENA

In compiling this index the following conventions have been observed:

1) dotted signs are listed without dots if the word is clearly readable elsewhere; 2) hypothetical forms with asterisk and fragmentary ones with only one syllabogram are not included; 3) forms with enclitic *-qe* are listed under those without *-qe*; 4) inflected words are listed in the form they occur; 5) in the alphabetical order doublets have been treated separately; 6) for volume I only the page is given; numbers following II refer to pages of the second volume; 7) n. = note, nn. = notes.
