LAMBERTI SCHENKELII
DVSILVII,
Ad lectorem beneuolum, carmen extemporale.

OBLECTANT *hominum dulci modulamine mentes*
Alaudæ, quamuis dent ſine mente ſonum.
Et philomela placet, cantillans nocte diéque;
Et plures aliæ, tempore veris, aues.
Quo magis afficiet, qui verbáque viua ſonóſque;
Juncta canens, blandum reddit ab ore melos!
Iſta SEVERINVS *tam docta præſtitit arte,*
Vt neget Arctoo Belga ſub axe parem.
Rectè igitur cecidit, caruítque nec omine fauſto,
A cornu nomen quòd gerit ille ſuum.
Si cupis interdum miſceri gaudia curis,
Hîc quæ te recreent multa videre licet.

CLARISSIMO HVMANISSIMOQVE VIRO D. CORNELIO PRVEN,

Celeberrimæ Ciuitatis Antuerpiensis Thesaurario primario S. P.

ANNIS *iam aliquot, integerrime vir, in nostris scriniis quædam Moteta, vt vocãt, delituerũt. Id subodorati amici nonnulli, sæpius mecum egerũt, vt illa in lucem emitterem; quibus hactenus id pernegaui: donec interuenirent alij (vt varij sunt amicorum gradus) quorum petitioni diutius reluctari, hominis fuisset parum humani. Porrò aliquãdiu mecum cogitans, cuinam potissimùm hunc laborem meum nuncuparem; vsu namque receptum videbam, nihil in publicum prodire, quod non sit illustris alicuius viri patrocinio commendatum; tu vnus præ cæteris occurristi, cui nominatim dedicandum consecrandúmque existimauerim. Non quidem vt hoc munere exiguo, magnam apud te gratiam inirem, sed vt sanctũ illud amicitiæ nostræ fœdus, multo abhinc tempore ictum, & longa annorum serie magis magisque auctum, hacce animi in te mei significatione corroborarem. Vt interim taceam, quantopere ad istud me extimularit expedita illa tua & admirabilis tum canendi tum omne genus fides pulsandi cognitio, qua sic excellis, (ne alias ingenij tui dotes attingam) vt non modò veteribus illis suam gloriam, verùm etiam nostræ ætatis excellentissimis hominibus, magnam laudis partem videaris præripere. Accipe igitur, vir ornatissime, hoc qualecumque mei in te amoris monumentum, atque illud æqui bonique consule. id si feceris, ego meos labores abunde compensatos existimabo: neque leue calcar addideris, ad alia paulo his sublimiora propediem tentanda. Vale Antuerpiæ.* M. D. LXXXI.
