Abstract
This is the presentation of the paper entitled “Educational Innovation Management. A Case Study at the University of Salamanca” in the TEEM 2015 International Conference held in Porto (Portugal) in October 7-9, 2015.

This paper is devoted to present the implantation of a repository for educational innovation projects management at the University of Salamanca in Spain. This repository stores the selected best practices of educational innovation in this University and classifies them according a set of indicators that have been previously agreed. The paper explains the processes to define the indicators and their application to a set of selected projects that have been stored in the repository.
