Más de 1000 repositorios a su disposición
OpenDOAR y ROAR

IX Workshop REBIUN, Salamanca, 2-3 Oct. 2009

Peter Millington
SHERPA Technical Development Officer
SHERPA, University of Nottingham
peter.millington@nottingham.ac.uk

http://www.sherpa.ac.uk/
Outline

• Open access repositories
  – The context
• Overview of open access repository lists
  – What are they used for?
• OpenDOAR’s facilities
• ROAR’s facilities
• Searching the content of OA repositories
• Mashing up OpenDOAR and ROAR
How many repositories are there?

- **OpenDOAR** – 1462 records
  - Directory of Open Access Repositories
  - SHERPA, University of Nottingham, UK
- **ROAR** – 1451 records
  - Registry of Open Access Repositories
  - EPrints.org, University of Southampton, UK
- **Other OA Repository lists**
  - Bielefeld’s BASE search engine – 1366 records
  - OAIster – 1139 records
  - OAI Registered Data Providers – 1120 records
- **DOAJ - Directory of Open Access Journals**
Open Access Repositories Worldwide

Proportion of Repositories by Continent

- Europe (711 = 48%)
- North America (414 = 28%)
- Asia (174 = 12%)
- Australasia (77 = 5%)
- South America (70 = 5%)
- Africa (26 = 2%)
- Caribbean (5 = 0%)
- Central America (4 = 0%)

Total = 1481 repositories

http://www.sherpa.ac.uk/
Growth of OpenDOAR Database

- Green: Number of Archives containing these records

http://www.sherpa.ac.uk/
Uses of *OpenDOAR & ROAR*

- Finding open access repositories
- Analysis of repositories’ features
- Statistics for Open Access advocacy
- Funding policy decisions
- Searching the content of OA repositories
- Source lists for harvesters
  - Search services – e.g. Intute’s IRS
  - Data mining
- Third party mash-ups – e.g. Repository66
OpenDOAR is an authoritative directory of academic open access repositories. Each OpenDOAR repository has been visited by project staff to check the information that is recorded here. This in-depth approach does not rely on automated analysis and gives a quality-controlled list of repositories.

As well as providing a simple repository list, OpenDOAR lets you search for repositories or search repository contents. Additionally, we provide tools and support to both repository administrators and service providers in sharing best practice and improving the quality of the repository infrastructure. Further explanation of these features is given in a project document Beyond the list.

The current directory lists repositories and allows breakdown and selection by a variety of criteria – see the Find page - which can also be viewed as statistical charts. The underlying database has been designed from the ground up to include in-depth information on each repository that can be used for search, analysis, or underpinning services like text-mining. The OpenDOAR service is being developed incrementally, developing the current service as new features are introduced. A list of Upgrades and Additions is available.

Developments will be of use both to users wishing to find original research papers and for service providers like search engines or alert services which need easy-to-use tools for developing tailored search services to suit specific user communities.

The importance and widespread support for the project can be seen in its funders, led by the Open Society Institute (OSI), along with the Joint Information Systems Committee (JISC), the Consortium of Research Libraries (CURL) and SPARCEurope.

OpenDOAR has also been identified as a key resource for the Open Access community (K.B. Oliver & R. Swain, 2006 - PDF), and was one of the services which contributed to SHERPA being awarded the SPARC Europe Award for Outstanding Achievements in Scholarly Communications.

More information on the project is available on this site through the About page.

Belarus
MyManuskrip: Digital Library of Malay Manuscripts (Pustaka Digital Manskip Melayu)

Organisation: Faculty of Computer Science and Information Technology, University of Malaya (UM), Malaysia

Description: This site provides access to the manuscript content and manuscript research from Malaysia. The interface is in English.

Software: Greenstone

Size: 50 items (2008-09-22)

Subjects: Multidisciplinary; History and Archaeology; Library and Information Science

Content: Books; Multimedia

Languages: English

Policies: Metadata re-use policy explicitly undefined; Full data item policies explicitly undefined; Content policies explicitly undefined; Submission policies explicitly undefined; Preservation policies explicitly undefined

11th Joint Symposium on Neural Computation

Organisation: Caltech (California Institute of Technology), United States

Description: This is a closed subject based repository containing papers from this 2004 conference. Part of the Caltech Online Digital Archives (CCDA) project.

OAI-PMH: http://jsnc.library.caltech.edu/perl/oai2

Software: EPrints

Size: 30 items (2009-02-10)

Subjects: Computers and IT

Content: Conferences

Languages: English

Policies: Metadata re-use permitted for non-for-profit purposes; Harvesting full data items by robots prohibited; Content policies explicitly undefined; Submission policies defined; Preservation policies not stated
Dipòsit Digital de Documents de la UAB

URL: http://ddd.uab.cat/

Organisation: Universitat Autònoma de Barcelona
Country: Spain
Location: Latitude: 41.501100 & Longitude: 2.107400. Google Map
Description: this site provides access to the research and learning output of the institution. The interface is available in English, Catalan and Spanish.
Type: Institutional - Operational
Size: 41988 items (2009-09-28)
Established: 2006
OAI-PMH: http://ddd.uab.cat/oai2d
Software: CDSWare
Subjects: Multidisciplinary
Content: Articles; References; Unpublished; Books; Learning Objects; Multimedia
Languages: Spanish; Catalan; English
Contacts: Cristina Azorín Millaruelo (ddd.bib@uab.cat), Administrator

Suggest an Update for this Record

Standardised Metadata Policy for information describing items in the repository

Grade: Metadata re-use permitted for not-for-profit purposes

1. Anyone may access the metadata free of charge.
2. The metadata may be re-used in any medium without prior permission for not-for-profit purposes provided the OAI Identifier or a link to the original metadata record are given.

Standardised Data Policy for full-text and other full data items

Grade: Harvesting full data items by robots prohibited

1. Anyone may access full items free of charge.
2. Copies of full items generally can be:
   o reproduced in any format or medium
   o for personal research or study, educational, or not-for-profit purposes without prior permission or charge.
3. Full items must not be harvested by robots

AURA, established in October 2005, is designed to provide an open access digital repository for the institution's research output. Primarily for the deposit of full text materials such as journal articles, journal reprints and preprints, conference papers and working papers, it also contains abstracts of published material.

Content Searching

- **OpenDOAR & ROAR** use Google CSE
- Uses Google’s indexes & technology
  - Just searches URLs listed in the database
- Focussed search results
  - High probability of open access full text items
  - Unlike Google Scholar & Google *per se*
- Benefits for...
  - Under-resourced institutions
  - Unaffiliated & off-campus researchers
